Hi, my name is Jasmyn Stagers. I'm a senior interior design major from Little Rock, Arkansas, passionate about creating functional and inviting spaces. My design style blends organic modernism with practical elements, aiming to enhance well-being through interiors. I have experience in residential and hospitality design and specialize in digital renderings using Revit and Enscape. As an active member of ASID, I help organize events while staying involved in the industry. My goal is to make a lasting impact in hospitality design.
